Nonsuch Brewing Co. Investment

We at La Brasserie Nonsuch Brewing Co. are thrilled to announce we've found our proper home at 125 Pacific Ave. in Winnipeg, Manitoba. Winnipeg's Exchange district and its unique energy have always attracted us. We're eager to join the many other organizations and businesses who've shaped the neighbourhood's special culture and we hope to do the same. The space itself, previously occupied by PEG Beer Co., is an obvious choice for a micro craft brewery.

The remainder of this summer is dedicated to developing the space into the home we've always dreamt of – we'll begin by configuring our brewing equipment and increasing production. With the additional capacity we'll be able to craft significantly more of our flagship beers and develop new products. The taproom will open to the public in the fall once we've had time to realize our vision and explore food options. We're creating a space unlike any other in Winnipeg, built around the ideal beer-drinking experience. Our new home and recent silver awards at the 2018 Canadian Brewing Awards have us feeling excited for the future. Until we open, you can find our beers on tap around Winnipeg and on Liquor Store shelves.

Upcoming Events

MEDF and LRCC will be attending upcoming Manitoba Metis Federation (MMF) regional meetings throughout the summer months. We will also be attending the MMF Annual General Assembly at the Assiniboia Downs September 21st - 23rd. Stop by our booth for amazing prizes and giveaways!
